

Vikrant Kumar

Address: Bengaluru, India **Phone number:** 9431095276
Email address: vikrant.shonit82@gmail.com **Web:** <https://vs-kashyap.github.io>

Professional Summary

Results-driven and highly adaptive **Director of Technology & Engineering Leader** with nearly a decade of experience bridging the gap between complex technical innovation and business impact. Proven track record of **scaling engineering teams, managing multi-project portfolios**, and delivering high-performance, AI-accelerated software solutions across FinTech, EdTech, and SaaS environments. **Expert in modern JavaScript frameworks** (React, Next.js) and pioneering Agentic/Conversational AI architectures to drive startup scaling, operational efficiency, and digital transformation.

Strengths

- Leadership
- Technical Architecture
- Team Collaboration
- Problem-Solving
- Mentorship
- Adaptability

Core Competencies

- Leadership & Strategy:** Technical Leadership, Agile Project Management, Architecture & Scalability, Product Roadmap Strategy, Team Mentorship, Executive Stakeholder Management.
- AI & Engineering Acceleration:** GitHub Copilot & Cursor Workflow Integration, Conversational AI Platforms, Agentic AI, Voice AI Agents, Scriptless LLM Interactions.
- Talent Acquisition & Technical Mentorship:** Proven track record in benchmarking elite engineering talent, structuring rigorous technical evaluation frameworks, and mentoring mid-level engineers into high-performing managerial roles.
- Frontend Ecosystem:** React.js, Next.js, Angular, Vue.js, JavaScript, Tailwind CSS, Material-UI, Ant Design, Redux.js, SASS, CSS Grid Layout.
- Frontend Development Tools:** GitHub, Bitbucket, SonarQube, Three.js, Webpack/Vite, NPM/Yarn, ESLint/Prettier, Chrome DevTools (Performance & Memory Profiling).

Skills

Engineering Process Standardization Professional	Project Management Systems Professional	Resource Allocation Optimization Professional	Quality Assurance Techniques Professional
Enterprise Project Architecture Professional	AI-Assisted Development Workflows Professional	Cross-Functional Collaboration Tools Professional	

Professional Experience

09/2024 – present Bengaluru, India	Director of Technology Gloify - Lead and empower a cross-functional engineering team of 20+ developers across multiple high-growth product lines, primarily focusing on FinTech and EdTech innovation. - Oversaw the end-to-end delivery of enterprise-grade, AI-powered platforms, successfully improving overall time-to-market by 40%. - Pioneered the integration of AI-assisted engineering workflows – specifically Claude, Cursor, and Copilot – into daily sprint cycles, significantly boosting baseline code quality, shrinking technical debt, and increasing developer velocity. - Formulate and execute comprehensive technology roadmaps tightly aligned with long-term business objectives, operational budgets, and client-facing milestones. - Foster a robust engineering culture centred on continuous learning, organising technical workshops, and mentoring senior engineers into managerial tracks.
---------------------------------------	--

 Professional Experience

08/2022 – 08/2024
Bengaluru, India

Senior Software Developer & Team Lead

Gloify

- Managed end-to-end sprint planning, allocation, and delivery for multiple complex client solutions, balancing fast-evolving business requirements with architectural integrity.
- Implemented strict Agile/Scrum project management workflows, driving faster release cycles, cleaner cross-functional alignment, and improved transparent tracking.
- Spearheaded the modular adoption of cutting-edge frontend architectures, shifting core platforms to **Next.js, Tailwind CSS, and Material-UI** to drastically enhance application performance and UI/UX component maintainability.
- Formulated architectural blueprints ensuring the systems built were robust, loosely coupled, and prepared for high-traffic scalability.

01/2020 – 08/2022
Bengaluru, India

Senior Frontend Developer

Gloify

- Engineered feature-rich, ultra-responsive user interfaces leveraging **React.js, CSS Grid Layout, and Material-UI**.
- Built out highly scalable, custom component libraries paired with **Redux.js and Ant Design** to streamline state management and accelerate frontend design uniformity across product lines.
- Managed advanced version control strategies on **GitHub and Bitbucket**, establishing clean branching mechanisms and automated linting that heavily decreased production deployment errors.

09/2017 – 01/2020
Bengaluru, India

Front-end Developer

Gloify

- Designed, maintained, and delivered highly modular and reusable front-end web components using **Angular, JavaScript, and Bootstrap**.
- Participated actively in code reviews and sprint retrospectives, identifying bottlenecks and resolving high-priority production anomalies under tight SLAs.

03/2016 – 08/2017
Bengaluru, India

Web Developer

Groupwork Technologies

- Constructed foundational, responsive web layouts using modern **JavaScript and CSS**.
- Collaborated closely with creative designers to ensure visual accuracy, pixel-perfect rendering, and multi-browser device performance.

 Awards

06/2026

Dedication & Commitment Excellence Award

Gloify

Conferred in recognition of unwavering commitment, exceptional work ethic, and dedication to maintaining foundational system uptime and engineering excellence while managing complex multi-project portfolios.

06/2024

Outstanding Leadership Award

Gloify

Awarded for exceptional cross-functional leadership and technical mentorship in managing and scaling a high-performing engineering team across FinTech and EdTech product lines.

 Achievements

Anthropic Certified: Claude Code Mastery | Issued March 2026

Successfully completed formal credentialing for **Claude Code in Action** via Anthropic (Certificate No: 8ucrK6tmzdtd), validating advanced proficiency in deploying agentic AI architectures and next-generation terminal development tools.

Excellence in Regional Program Coordination | IL&FS Education & Technology Services Ltd

Recognized for operational excellence and seamless execution during the deployment and coordination of educational technology infrastructure frameworks at Kadri Uchh Vidaylay Daudnagar.
